## Peugeot 5008

AED 89,900

The Peugeot 5008 is basically a stretched version of the 3008, sharing almost identical components and a design that makes them difficult to tell apart at a glance.

What matters for UAE buyers though, is that unlike the 3008, the Peugeot 5008 is offered with seven seats as standard. While luggage space is a little limited with the third row of seats up, they do fold away into the floor to free up a generous 952L of luggage space, which extends to a massive 2,000L if the second row is also folded.

The 5008 is currently offered in the same three variants as the 3008, giving buyers ample choice depending on budget and requirements.
